National Terrorism Advisory System Current Alerts

SITUATION SUMMARY

- SOC / Inland REOC remains activated in support of 2014 Drought

Significant Weather

- Freeze Watch in effect from late Saturday night through Sunday morning for portions of Siskiyou County.

Northern California

Encinal Incident, CA-BEU-1099, Vegetation Fire, Monterey County (Final)

- Start Time: 1645 hours 3/19/2014
- Encinal Road, 8 miles South East of Salinas, SRA

Per Cal Fire, Cal OES FDO, and ICS-209 dated 3/21/2014 at 1745 hours:

- 400 acres, 100% contained
- No structure or infrastructure threats
- Total Resources – 184

Southern California

Boil Water Notice, Trinity Oasis Mobile Home Park, Yermo, San Bernardino County (New/Final)

On Thursday, March 20, 2014 at 1729 hours the Southern Region Duty Officer (SDO) was notified by the San Bernardino County Duty Officer that Trinity Oasis Mobile Home Park in Yermo (First District) was without water service due to broken water lines near the well.

- A Boil Water Notice from San Bernardino County Environmental Health Services was provided to the park operator on 03/20/14 for distribution to all tenants.
- No assistance from Southern Region requested and the SDO will continue to monitor the situation and provide updates, if needed.
- Please see Southern California – Significant Activity slide for additional details.

OF EMERGENCY SERVICES

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

High pressure will dominate the weather pattern through the weekend with dry conditions and gradually warming temperatures. Precipitation chances will increase Monday night and Tuesday as a storm system approaches Northwest California. Unsettled conditions will persist through the rest of the upcoming week.

San Francisco Weather:

High pressure along the West Coast will maintain dry conditions and mild afternoon temperatures through early next week. Precipitation chances increase Tuesday through the middle of next week as a storm system approaches Northern California.

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY

Sacramento Weather:

Warm and dry weather will continue through the weekend except for a few showers that may build over the Sierra Nevada this afternoon southward of Lake Tahoe. There is higher confidence that a Pacific storm could bring wet and cooler weather Tuesday into next weekend.

Hanford Weather:

Sunny and warm conditions expected for this weekend. Precipitation is possible by the middle of next week.

WEATHER SYNOPSIS BY REGION: (Cont.)

SOUTHERN CALIFORNIA:

Los Angeles Weather:

A weak upper level low will bring cool weather and mostly cloudy conditions through Saturday with slightly warmer weather and better afternoon clearing on Sunday. Night and morning patchy drizzle is possible as well. Further warming is expected early next week as high pressure returns. A weak trough will approach on Tuesday bringing a slight chance of showers through mid-week.

Extreme Southwestern California Including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

High pressure to the north will bring inland warming through early next week while a weak upper level low pressure system over the Southern California coastal waters maintains the marine layer. This will keep coastal areas cooler with areas of night and morning coastal low clouds and patchy fog. For late Wednesday and early Thursday, a trough of low pressure moving inland through California will bring stronger onshore flow with gusty west winds in the mountains and deserts and a chance of light precipitation along and west of the mountains. Weak high pressure will bring minor warming for Friday.

Southeast California Weather:

Dry weather with only periodic high cloud cover will continue through early next week. Above normal temperatures will also prevail with daily highs generally from the upper 70s to upper 80s across lower desert communities.

WEATHER

Longer Term Outlook

An upper level trough will move through Northern California Tuesday into Wednesday bringing a cooler air mass and breezy southwesterly winds along with a threat of precipitation. Increasing instability on Wednesday as the system starts shifting to the east that could bring some thunderstorms. Additional precipitation is possible through the end of the week with more systems coming through the area. The precipitation received will offer some short term gains but will not end the drought.

Forecast Confidence

- Medium for precipitation Tuesday and Wednesday
- Low for thunderstorms
- Low for precipitation beyond Wednesday

Timing and Strength

- Precipitation spreading southeast across interior Northern California on Tuesday and continuing into Wednesday
- Snow levels around 6000 ft Tuesday and lowering to around 4000 ft on Wednesday
- Precipitation totals for Tuesday and Wednesday, up to half an inch in the Central Valley. Half an inch to an inch in the foothills and mountains except 1 to 2 inches in the Sierra
- Snow amounts up to a foot above 6000 ft in the Sierra. Up to a few inches possible over the Coastal Range and above 4000 ft in Shasta County.

National Weather Service

Possible Precipitation Totals : Next Tuesday-Wednesday

CAL OES ACTIVATIONS

Cal EOC Incident – 2014 Drought

- The SOC is activated at Level 2 in support of the Drought State of Emergency from 0800-1700 hours daily.
- The Inland REOC is activated at Level 2 from 0800-1700 Monday through Friday or as needed.
- The Southern REOC is activated at Level 1.
- The Santa Barbara County OA EOC is activated at Level 2 to be handled by the duty officer for the purpose of monitoring activities and gaining situational awareness. The operational period is 0800-1700 hours.

SIGNIFICANT EVENTS / ACTIVITY

Cal EOC Incident – 2014 Drought

Information as of 3/17/14

Situational Summary: (No Change)

On January 17, 2014 Governor Edmund G. Brown proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for drought conditions. The State Operation Center (SOC) is activated to implement objectives in support of the Governor's priorities. The lack of winter rain and snowfall has resulted in extremely dry conditions in many parts of the State. Reservoir levels are down significantly from where they should be on average for this time of year. If conditions continue without substantial rainfall, severe impacts to municipal water supplies, agriculture (plants and livestock) and firefighting capabilities are likely in store for the State over the next few months. Negative economic impacts will also result.

Dry conditions are expected statewide through mid-week, with record high temperatures in some places. A weak pressure front will move in by the middle of the week with cooling temperatures, but little to no precipitation is expected.

Despite above average rain and snow in February and early March, much of California has received only about 50% of normal precipitation. Heavy rain and snow would have to fall throughout California very frequently from now until May to reach average annual rain and snowfall levels. Even with such precipitation, California would remain in drought conditions, due to low water supplies in reservoirs from the two previous dry years. The drought could result in severe impacts to the municipal water supplies, wells, agriculture (plants and livestock) and firefighting capabilities for several months. The SOC continues to be activated to monitor the situation statewide, and support regional and local operational areas.

Cal EOC Incident – 2014 Drought (cont'd)

Information as of 3/18/14

Situational Summary: (Cont.)

- The Taskforce continues to meet regularly to take actions that conserve water and coordinate state response to the drought.
- The State Water Resource Control Board (SWRCB) staff participated in the Small Systems Inter-Agency Outreach Committee meeting USDA Rural Development, California Water/Wastewater Agency Response Network and Rural Community Assistance Corporation on March 5, 2014.
- The recent snowpack survey conducted on 3/12/14, recorded California snowpack at 29% of normal. The statewide snowpack as of March 6 indicates a snow water content of 33 percent of average to date and 30 percent of the April 1 average.
- DWR has announced that water essential for health and safety will be delivered through the state water project in spite of the zero allocation policy. Deliveries will be boosted if storms produce enough rain and snow to increase reservoir storage and the snow pack.
- On March 27, 2014, SWRCB will be at the groundbreaking ceremony for the City of Visalia's \$147 million Water Conservation Plant upgrade and recycled water distribution pipeline, made possible by an earlier CWA SRF loan from the State Water Board.
- Cal OES continues to gather drought-related costs from state agencies and local governments.

Current Drought Updates:

- 2014 Drought Response Report will be updated again on 03/24/14 unless the situation warrants.

Declarations/Resolutions/Proclamations: ([Update](#))

State:

01/17/14 – January 17, 2014, Governor Edmund G. Brown proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for these drought conditions.

Southern California – Significant Activity

Boil Water Notice, Trinity Oasis Mobile Home Park, Yermo, San Bernardino County (New/Final)

On Thursday, March 20, 2014 at 1729 hours the Southern Region Duty Officer (SDO) was notified by the San Bernardino County Duty Officer that Trinity Oasis Mobile Home Park in Yermo (First District) was without water service due to broken water lines near the well.

- There are approximately 140 trailers at this location.
- The park was providing bottled water for drinking.
- A Boil Water Notice from San Bernardino County Environmental Health Services was provided to the park operator on 03/20/14 for distribution to all tenants.
- Repairs were made the evening of 03/20/14 and the system was being tested for leaks. If there were no additional leaks, chlorination was due to begin on 03/21/14.
- Samples will be taken and analyzed Sunday and Monday. If samples are negative, water will be approved for consumption. The water system operator estimates that this will be on Tuesday.
- No assistance from Southern Region requested and the SDO will continue to monitor the situation and provide updates, if needed.

CAL OES MISSIONS

Drought Related Missions

- **2014-Inland-2185** Tuolumne County does not have a water master or any alternative resources to assist in determining the health of their ground water system. The County is requesting state agency expertise to assist with this determination.

New Cal OES Missions

- **2014-LAW-2561** On 03/22/14, Santa Clara County Sheriff's Office requesting a Mobile Interoperability Gateway Unit (MIGU) to support a law enforcement incident/fugitive search. Cal OES LDO coordinating resource request.
- **2014-LAW-2556** On 03/21/14 at 1349 hours, Air Force Rescue Coordination Center (AFRCC) advised of an emergency locator transponder (ELT) sounding at Van Nuys Airport. A Civil Air Patrol (CAP) Incident Commander (IC) has been assigned to locate and silence the device.

CAL OES MISSIONS

Ongoing Cal OES Missions

- **2014-SREOC-2453** On 3/5/2014, San Bernardino County Fire OES is requesting communications support for Baker to Vegas Challenge Cup Relay on March 20, 2014. Cal OES T-Comm representative is coordinating the required resources.
- **2014-SOC-2111** Mission is to test the Cascadia Subduction Zone (CSZ) air bridge concept by air transporting 7 passengers from OES and 1 CANG logistics planner on 13 May 2014 from Mather to the State Staging Area (SA) in Redding, to one POD in Del Norte and one POD in Humboldt, to the Redding State SA, and return to Mather. Passengers will discuss actions at the Redding SA and at each OA POD while they are at each location. The air bridge is a critical component to CSZ response and recovery. It is imperative this concept is tested to ensure response teams can be successfully transported into the effected region and the affected Operational Areas' are able to receive aircraft at designated PODs.

UPCOMING EVENTS, TRAINING, EXERCISES

Diablo Canyon Power Plant, Rehearsal / Full Scale Exercise

Diablo Canyon Power Plant in San Luis Obispo will be hosting two full scale Hostile Action Based exercises this Spring. A dress rehearsal exercise will be held on April 16, 2014 and a FEMA evaluated exercise will held on May 21, 2014. This is part of the required biennial demonstration of our ability to protect the public from a radiological incident at the nuclear power plant.

2014 Golden Guardian

Planning is currently underway for the Governor's 2014 exercise series. The series will test the *California Cascadia Subduction Zone Earthquake and Tsunami Response Plan* developed by FEMA Region IX and Cal OES

- Logistics Rehearsal of Concept Drill - April 2, 2014
- REOC Communications Functional Exercise - March 27, 2014

The Tsunami Warning Communications Test

Live code, activating EAS will be on the North Coast in Del Norte, Humboldt Counties on Wednesday 3/26/14 (between 11:00 and Noon PDT).

- Del Norte County will be asking residents of the community to participate in a full evacuation exercise on March 26th between 1100 – 1300 hours PDT.

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
